Guide for: How to Add my Email Adress on an iPhone (English)

How do I add my email address to an iPhone?

Step 1: Open the Settings app on your iPhone

Step 1: Open the Settings app on your iPhone

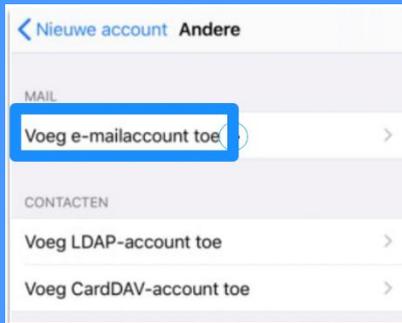

- Open the Settings on your iPhone.
- When you know your email account is active, you can start configuring it on your device. Open your iPhone or iPad and go to 'Settings.'

- Step 2: Scroll down and tap on 'Mail'
- Then, go to 'Mail.'

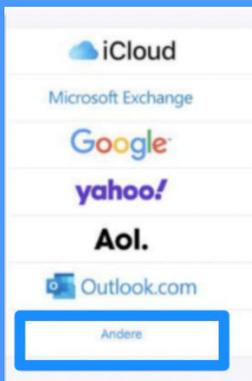

Step 3: Select 'Accounts' and then 'Add Account'

- Click on 'Add Email Account.'

- Step 4: Choose your email provider from the list (e.g., Google, Outlook)

After clicking on 'Mail,' you'll arrive at the mail settings. Click on 'Add Account' and choose from the list.

- Step 5: Enter your name and email details
- Enter your name and email details—your existing email address—and then the password you have set up for your email.

- **Step 6: Tap 'Next' and wait for your account to be verified**
- If all the details are correct, click 'Next' and wait for your account to be verified. This may take some time, especially for all the emails to load. Please be patient!

Step 7: Done

- Once everything is verified, you can now send and receive emails!

With these steps, you have successfully added your email account to your iPhone!
